

Vendor Finance Calculator

FINANCE OPTIONS AT YOUR FINGERTIPS

The quick and easy way to offer a
monthly payment option
everytime you quote

ONLINE & ON MOBILE

Your asset finance partner

The **Vendor Finance Calculator** is an easy-to-use sales tool developed to enable manufacturers, distributors and resellers generate monthly payment options to include in ALL of their customer quotations.

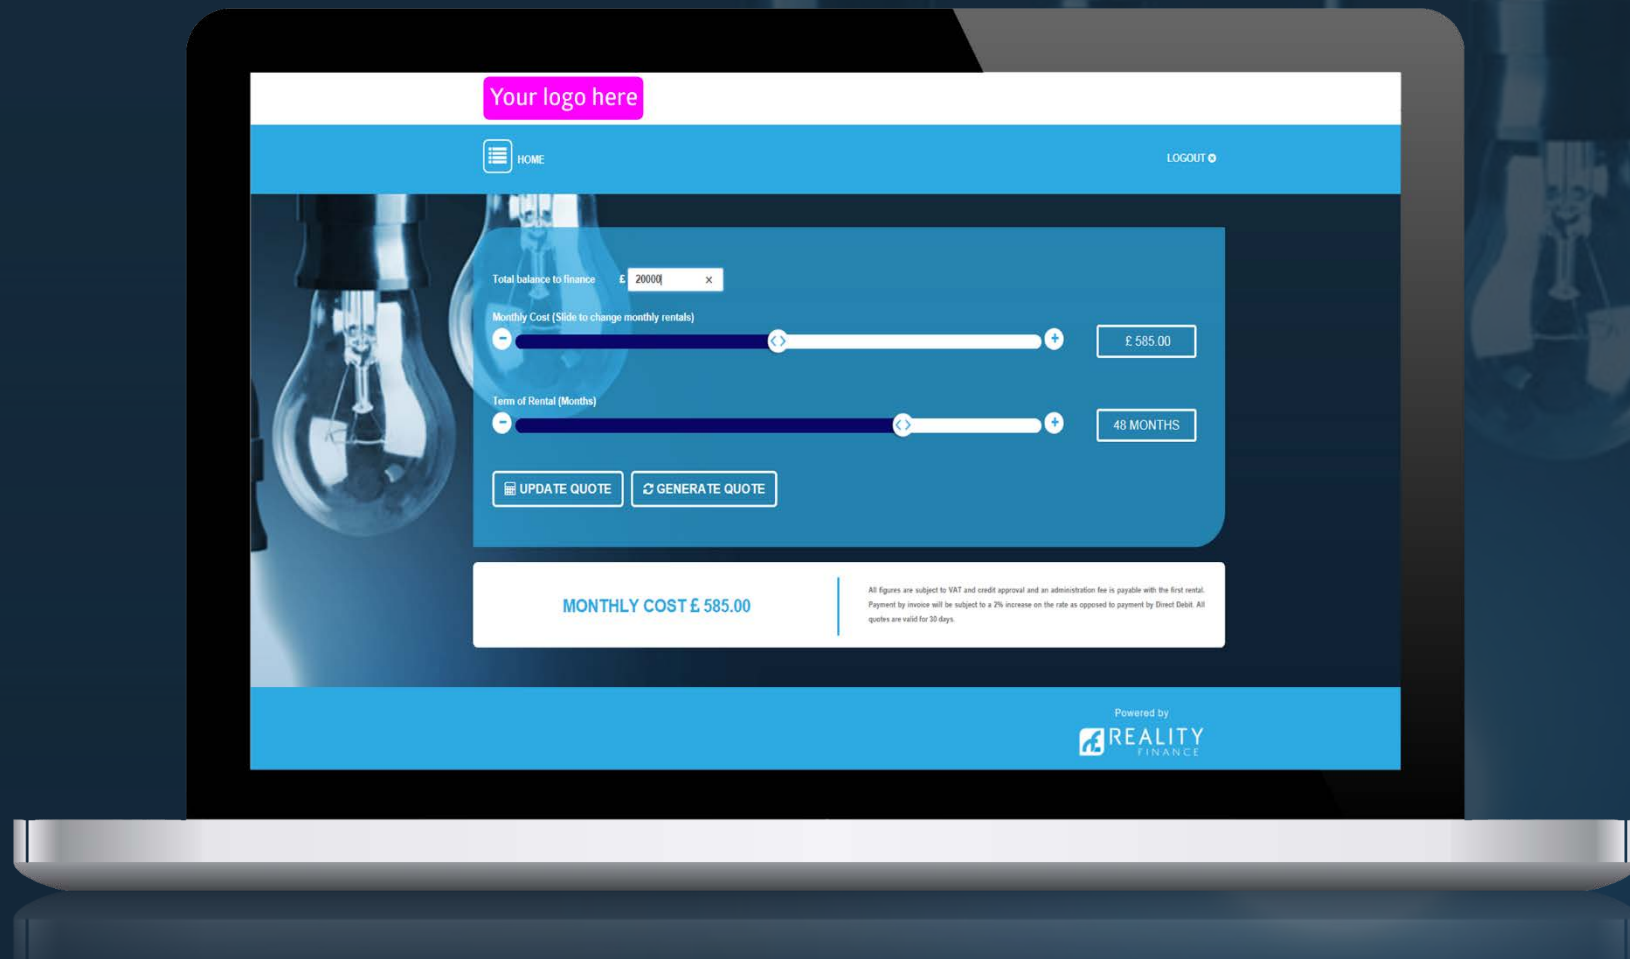

Customised with your pre-agreed, competitive rates and uniquely branded with your company logo, the Vendor Finance Calculator does all the work for you.

How it works

Simply log in, enter the balance to finance and use the slider to select the term required. Your customer's monthly cost is displayed on screen. Easy!

The sliders can be used to adjust the length of term or the monthly cost so that you can tweak your customer's quote accordingly. The calculator enables you to calculate monthly rentals based on an invoice value or calculate an invoice value based on a monthly cost – whichever works best for you and your customer.

“Co-branded with your company logo”

“Create quotes any time, anywhere”

“Available online, on iOS & on Android”

“Email quotes directly to your customer”

There's also an option to generate a branded PDF quotation, complete with your company logos and colours, that can be emailed directly to your customer or printed off and attach to your own quotations.

The [Vendor Finance Calculator](#) can be used anywhere and at any time, adding significant value to your business by saving you valuable time, accelerating your sales process and helping you close more business.

“Now I can quickly and confidently generate a monthly finance option to include in all my customer quotations. It's so easy!”
